## DIRECTOR'S CLUB

This is the perfect place for couples to spend time together; watching a movie side by side. To make it a memorable time, the director's club has the highest quality visual and sound system. To make it a better experience, the chairs are arranged so that you won't be able to see the person in front of you which will guarantee the best experience from the movie. For comfort, you'd be sitting on a sofa with a footstool and an armrest by your side. The floor is also carpeted. The services are just incredible it'd be worth it paying \$175.

In the middle of the show, when you've finished your snacks and still want to eat, you don't want to go out because

that'll mean that you'd miss parts of the movie. However, when watching a movie in the director's club, with a click of a button from the side of your seat, a waiter would come and serve you a hotdog, popcorn or a drink. That way, you won't need to leave your seat and skip a part of the movie.

To make it convenient for other people who are in the house as well, the same rules apply; no smoking, switch off cell phones and don't make noises. There is also the rule; no recording the film as it is illegal. If these rules are broken, there would certainly be a punishment. So, just be a good audience and enjoy!

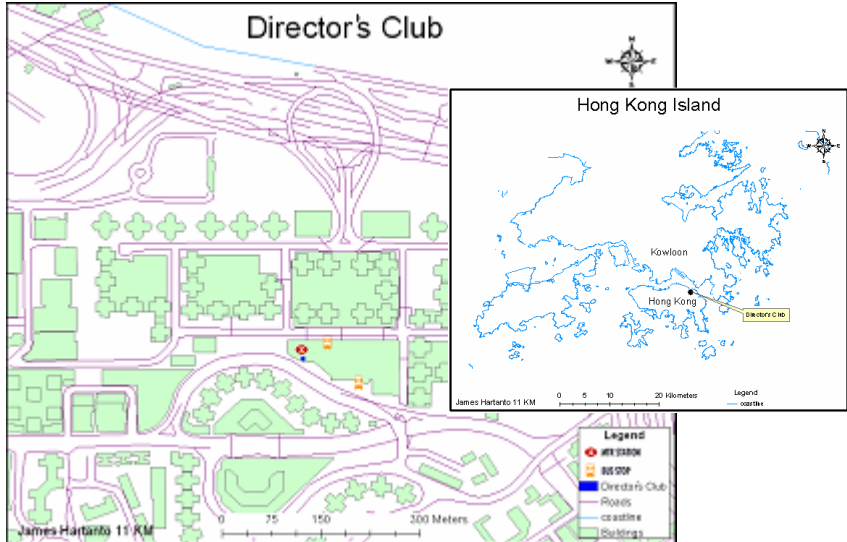

### Code Of Ethics:

*Be aware of the feeling of other people, thus preventing what might be offensive behavior. Remember this especially with photography.*
